NOTICE OF DRINKING WATER
TOTAL TRIHALOMETHANES VIOLATION
AND HALOACETIC ACIDS VIOLATION
RRA - Lake Arrowhead Water System, ID No. 0390021

The Texas Commission on Environmental Quality (TCEQ) has notified the Authority's Lake Arrowhead Water System that the drinking water supplied by the system has exceeded the Maximum Contaminant Level (MCL) for TOTAL TRIHALOMETHANES (TTHM's) and HALOACETIC ACIDS (HAA5), as set in the Commission's Drinking Water Standards.

The MCL for TTHM's is 0.080 milligrams per liter (mg/L) and the MCL for HAA5's is 0.060 mg/L. Compliance with these levels is based on a locational running annual average of quarterly sample results. Lake Arrowhead Water System's compliance values for TTHM's in the second quarter of 2017 for DBP2-02 was 0.137 mg/L and for DBP2-01 was 0.121 mg/L. Compliance values for HAA5 in the second quarter of 2017 for DBP2-02 was 0.089 mg/L and 0.073mg/L for DBP2-01.

This is not an emergency. However, some people who drink water containing trihalomethanes or haloacetic acids in excess of the MCL over many years may experience problems with their liver, kidney, or central nervous systems, and may have an increased risk of getting cancer.

You do not need to use an alternative water supply. However, if you have health concerns, you may want to talk to your doctor to get more information about how this may affect you. .

The Authority is currently working with the engineer to determine how to bring the system in compliance with these MCLs. The Authority will continue to send letters out until the running annual average is below the required MCL.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

For further information, please contact Mr. Ronald A. Mullins Regional Manager, at the Red River Authority of Texas at (940) 723-8697. You may also contact your District Manager, Mr. Jon Faris, at (940)528-2252.

Sincerely,

RED RIVER AUTHORITY OF TEXAS

Ronald A. Mullins
